

Sai Srujan Punati *Flutter Developer | Cloud & DevOps Enthusiast*

 saisrujanpunati@gmail.com  +917569799199  LinkedIn  Github  Portfolio  Hyderabad, India

Profile

Passionate **Flutter developer** with hands-on experience building full-stack apps using **Firestore, Supabase, and FastAPI**. Skilled at creating data-driven, scalable solutions and currently expanding expertise across **Cloud (OCI, AWS), DevOps And Blockchain** to build secure, production-ready systems.

Education

Bachelor of Technology (B.Tech.) in Information Technology 08/2024 – Present
Vidya Jyothi Institute Of Technology Hyderabad
CGPA - 9.63/10

Skills

Dart

Flutter

Firestore

Supabase

Python

FastAPI

Playwright

BeautifulSoup

Oracle Cloud (OCI)

Git & GitHub

Linux

Gemini / OpenAI API

Certificates

Oracle Cloud Infrastructure Foundations Associate
Oracle University 

Dart and Flutter: The Complete Development Course
Udemy 

CS50X: Introduction to Computer Science
Harvard University 

CS50 SQL
Harvard University 

CS50P: Introduction to Programming with Python
Harvard University 

Deloitte Cybersecurity Job Simulation
Forage 

Professional Experience

DevUp Society, VJIT 09/2025 – Present
Tech Lead

- Developing and maintaining the DevUp website and event-specific registration systems.

Developer Student Society & Algorand Blockchain Club 09/2024 – Present
Tech Team Member

- Contributed to development of the society's main website and collaborated with peers in the Blockchain Club to explore decentralized systems and smart contracts.

Deloitte Cybersecurity Job Simulation (Forage) 09/2025
Virtual Intern

- Completed real-world tasks in incident response, digital forensics, and risk analysis.

Projects

HackRadar (App + Backend) 
Flutter, Dart, Supabase, Python, FastAPI, BeautifulSoup, Playwright

- Built a cross-platform app aggregating live & upcoming hackathons from multiple platforms like Devfolio etc.
- Automated backend scraper using Playwright, BeautifulSoup + FastAPI, storing structured data in Supabase for real-time access

VJIT Study Vault (App + PWA) 
Flutter, Dart, Firestore, Firebase

- Developed student-focused study-material hub , mobile app that centralizes study materials for VJIT students.
- Added file downloads, and personalized onboarding for 100+ active users.

ShadowMesh 
Flutter, Dart, Bluetooth Mesh

- Developed an offline, peer-to-peer encrypted messaging app enabling secure communication without internet or SIM.
- Implemented metadata-free, self-destructing messages via Bluetooth mesh networking.
- Won 2nd Prize at PitchQuest 2025 (E-Cell VJIT)**

Other Projects 
BackBench AI, DailyDone, WhoDat?, Explainify, TrackFolio

Awards

2nd Prize – Cyberonix Cybersecurity Hackathon
Supraja Technologies

2x 2nd Prize – PitchQuest (2024 & 2025) – For projects MyCloset and ShadowMesh
ECell VJIT
